

Dear CCD75,

Thank you for sharing with us Resolution #17 regarding Senate Bill S1018. This bill was a priority for NYC Public Schools during the past legislative session and has our support. As you may know, while this bill did move out of the Senate Subcommittee on NYC Education during the 2025 State Legislative Session, it did not advance through the full Senate or the Assembly. It will continue to be active during next year's state legislative session.

We continue to prioritize updating our bus contracts and believe a change in state law is the best path forward. I look forward to discussing this topic with all of you as we move to next steps on both our busing contracts and our legislative advocacy.

Thanks,

Katie Jedrlnic

Senior Executive Director, Office of Policy and Advocacy
